

F501
10 GAS BOTTLES

CLIMATE SOLUTIONS
BY AGROFROST

FROSTBUSTER

● APPLICATIONS

- Usable anywhere, including in greenhouses
- Orchards
- Low crops in open fields
- Vineyards
- Flowers

Function: Radiation frost / Black frost
Phase transition

● TOWED MACHINE

PTO tractor : 65 HP Minimum / 540 Rpm

Dimensions: Length 430 cm / Width 145 cm / Height 165 cm

Weight: 1480 kg (without gas bottles)

Gearbox: with freewheel clutch

● HEATING FUEL

Gas: 8 to 10 bottles (transportable in holders)

Consumption: 30 to 35 Kg/Hour - Up to 10 hours of autonomy
(Depending on the capacity of the gas bottle and the mode of use)

Air outlets: 2 low outlets (1 right/1 left)

Ventilator capacity: 23,500 m³/hour

● BURNER

Automatic start: depending on fan speed

Temperature control: In the cabin

Maximum range: 40 metres on each side (Orchard)
30 metres on each side (Vineyard)

Maximum temperature: 85° / Temperature at 1 metre: 20°

Pulse burner: Controller and ionisation sensor

Safety standards: EEG/CE
